ACTUAL CHANNEL LETTER POPULATION AND PRODUCT PLACEMENT MAY VARY FROM THIS LAYOUT.

Channel LED modules and power supply quantities are ESTIMATES ONLY and are based on the supplied information and drawings. Channel letter depth, lens color, material and thickness can vary, which may lead to an increase or decrease in product at the time of installation. To ensure accurate product requirements, it is recommended that product is tested using customer's specific lens material and letter configuration. SloanLED highly recommends applying Light Enhancement Paint (LEP) or Light Enhancement Film (LEF) inside channel letters for optimal illumination.

This design and drawing are proprietary and the property of SloanLED. Any reproduction or use without prior written approval is prohibited.
