**Introducing Multiwall**

# Multiwall

Add colour, interest and creativity to your design projects

Multiwall sheeting is a **lightweight insulating glazing** material manufactured from **damage resistant** polycarbonate. Added **long-life protection** provides **resistance** against the effects of **UV weathering**. Available in a range of thicknesses, structures and options for a wide range of roofing, cladding and glazing applications.

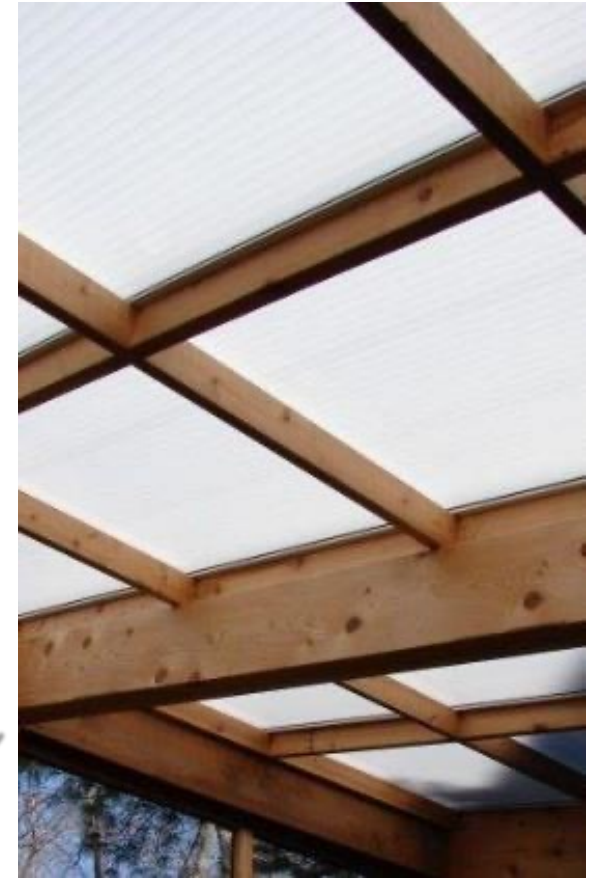

# Originally developed for...

*Awning*

*Roofing*

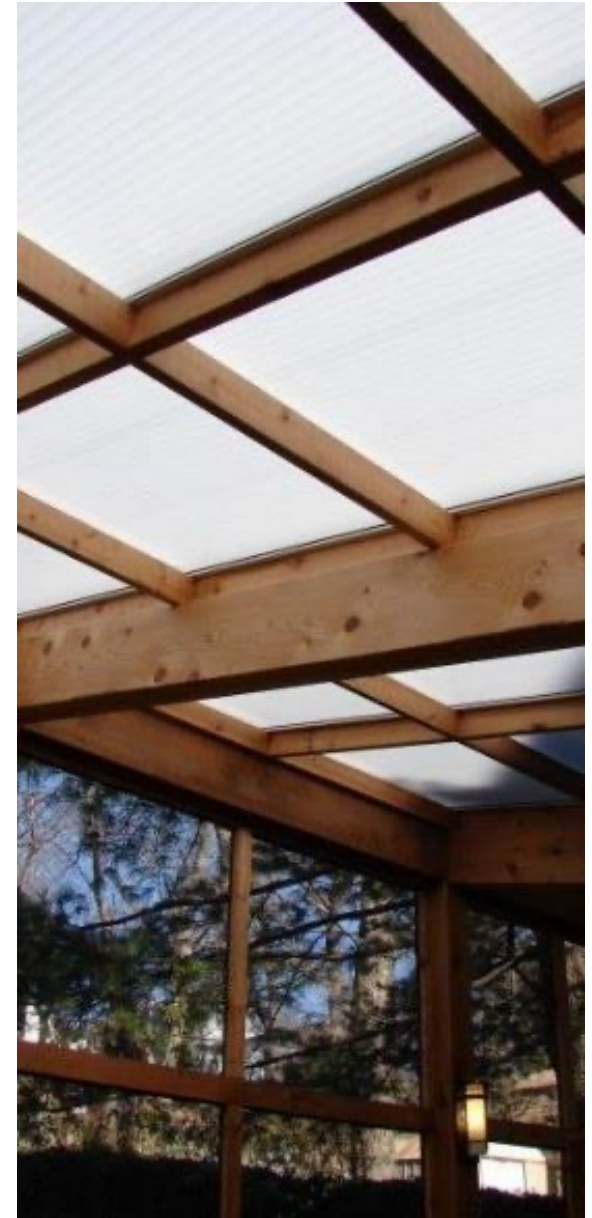

*Green House*

# Features & Benefits

- Energy saving
- High natural light transmission
- Optically clear
- Printable
