

PERSPEX® ACRYLIC MARINE APPLICATIONS

MARINE GLAZING

The outstanding performance of PERSPEX® acrylic means that no matter where you are heading, PERSPEX® acrylic will always get you there, providing marine glazing that is stronger and more durable than ever before. Here are a few reasons why:

- **Exceptional optical clarity.**
- **Excellent weather and UV resistance.** PERSPEX® cast sheet offer a very great UV resistance to sunlight which will allow your selected colour to stay the same for years to come and will allow to maintain its unique mechanical properties.
- **Seawater resistant.** In opposite to other transparent materials, PERSPEX® cast acrylic is sea water resistant.
- **Lightweight.** PERSPEX® cast acrylic is 2.5 times lighter than glass. It helps to reduce the total weight and has a positive impact on the sustainability of yachts, sailing ships and recreation boats.
- **Easy to fabricate.** PERSPEX® acrylic can be easily processed in CNC routing and milling, it can also be easily laser cut, thermoformed, line bent, etched, and polished.
- **Shock and flex resistant.** The outstanding performance of PERSPEX® acrylic means that no matter where you are heading, PERSPEX® will always get you there.

So whether you are sailing through mid-Atlantic storms or enjoying the summer breeze at bays of the Mediterranean Sea, the versatile nature of PERSPEX® acrylic makes it an incredibly practical material. Some typical examples of where PERSPEX® acrylic is used include windshields, portholes, deck windows, sliding doors, design elements, etc.

RANGE	COLOUR	CODE	LT%	THICKNESS (MM)	SIZE (MM)

*MTO: make-to-order. Please ask for details of minimum order quantities and lead-times for all PERSPEX® make-to-order/ custom products. If you require a different colour or thickness, all colours can be made to match your personal specifications. If there is a need for higher impact resistance, all materials would be available as PERSPEX® Impact Modified products based on batch quantities. For more details, please contact our sales team.

INTERIOR DESIGN

Whilst the range of available tints and the optical clarity of PERSPEX® acrylic are perfectly suitable for glazing, its remarkable toughness, light weight and ease of fabrication mean it's also ideal for a whole range of other applications:

- Dash boards
- Doors
- Tables / seats
- Cladding elements / Splashbacks
- Kitchen worktops and cupboard doors
- Bathrooms

Different colours, different textures and different finishes, - PERSPEX® acrylic is ready to meet any customer needs.

LIGHTING

PERSPEX® Light collection is specifically optimised for LED ceiling panels, capable of lighting up any space in either domestic, commercial or industrial areas. Lighting on sailing yachts or motor boats is not an exception. PERSPEX® acrylic offers products for different luminaire design construction; edge lit and back lit, as well as a reflector sheet.
